New Virtual Reality Simulator For This Season!

We have several new systems designed to take you to a new level in virtual reality. The systems give you sights, sounds, and even smells! Designed to make you feel as though you are a part of the game. We can accommodate from one to twelve participants in our games. Depending upon which system you choose, for your event.

There are two different systems to choose from: **Immersive Systems and Interactive Systems**. With 4 different models of each system there is something for everyone to enjoy.

The **Immersive system** gives you the total experience. With 3D graphics, its also combines with sound and smell to complete the virtual experience.

The **Interactive System** gives you the same wonderful 360-degree sight and sound to make it seem as though you are inside the game as you play!

Immersive Systems

(1) Experience System:

Imagine a system so relaxing and immersive it has been called a “virtual vacation.” This system combines incredible 3D graphics, rich multi-directional sound, stimulating aromas, and an ergonomically designed chair. Based on NASA research, this chair gives you the sensation of floating in zero gravity! So get ready to scuba dive, time travel, and race sports cars.

(2) Virtual Scentsations:

This is the world’s first **unattended** VR kiosk, complete with 3D sight, sound, and smell. The compact system occupies a mere 9 sq. ft. of floor space. With an external monitor, three different experiences, and a futuristic headset. This system can take you places you’ve only dreamed.

(3) Sensory Theater:

With the Sensory Theater 6 or 12 people can **simultaneously** experience the 3D sight, sound, and smell of high tech entertainment. A patented seat mounted tactile sound system stimulates the sense of touch. With the capacity to entertain 60-150 people per hour, this is ideal for large groups and events!

(4) VRide:

By enclosing a 12 seat Sensory Theater in a 23ft. **themed environment**, we’ve given virtual reality a new level of versatility. With all of the advantages of the Sensory Theater plus space-aged black lights and neon. VRide is perfect for indoor and outdoor events, trade shows, parties, fairs, promotional tours, and more!

Interactive Systems

(1) Cyber Unit XLR8:

The cyber Unit is a fully interactive Virtual Reality system. With 360 degree **head tracking**, the movement of your head actually controls the game! 3D sound and audio-tactile feedback from the bass pumping maximum impact chair will blow you away!

(2) VRcade:

VRcade actually places you **inside** the gaming experience. The arm-mounted display gives the VRcade a virtual screen size of 80", making it one of the most immersive game systems ever created. With ergonomic controls, a sophisticated sound system, and a variety of software titles you can't lose!

(3) VRE:

It's like opening the other eye. 3D stereoscopic vision featured in the VRE stand-up Virtual Reality system actually lets you see with real **depth perception**. So when you scramble for cover from the rocket that was screaming at your head, try to remember that it is only a game.

(4) High Tech Simulators:

With our wide variety of High Tech Simulators, you can experience anything from a heart-pounding dogfight in an attack helicopter to hurtling around the Indianapolis 500 raceway at 200 mph. Some of these games feature **motion platform** technology as well as multi-player head to head and/or cooperative play modes.

If you have any questions about these or any of our games please feel free to give us a call.
